

- ACCCNRS
- CLU Associate Director
- Five year anniversary, recompute support a look back and look forward
- NRC LCC panel paid close attention to strategic plan and its links to performance measures
- Each CSC initial plan coming to end of its term

	Strategic plan	Science plan
Network plan (~2017)	<ul style="list-style-type: none"> • Mission statements • Operational principles • Network policies (data, RFP terms) • Personnel strategies • Performance metrics 	<ul style="list-style-type: none"> • Network strategic directions • <i>Definition of core products</i> • NCCWSC role, agenda, agenda-setting process
CSC plans (+1 year after host selection)	<ul style="list-style-type: none"> • Specific partners (SAC) • Co-development and science planning processes 	<ul style="list-style-type: none"> • Key management challenges • Science themes for ~5 years • Expected outcomes

**What should ACCCNRS do to
support or assist
development of a network-
wide strategic plan??**

Climate signal >> Impacts and vulnerability >> Adaptation

“Deep” co-development >> Synthesis >> Technical assistance

Science >> Convening, communications

Place-based, local, problem-specific >> Place-based + *ad hoc* synthesis >> Multi-tiered study design

Individual management actions >>> Agency planning and NEPA processes
